

# The Source

## Built to Spill

Morning comes and I'm up on time again  
Upon getting up and I'm down on what I got up for  
It's been a long time my friend  
Boring, dumb, and fine  
So why you wanna bring that up  
You haven't changed, neither have I feel it started at the source  
What is it that makes you cry and why? When you see a documentary and know the outcome  
You still hope Hitler will blow up  
And that it's fucked  
And that Kennedy will duck  
I feel it started at the source
