

In the Morning

Urban Mystic

under the cover

shobedowop, shodowop under the cover

shobedowop, shodowop under the cover

last night, was a beautiful experience
spiritual, like an angel spreading her wings

oh have mercy

anticipating my whole life, to wake up

show you the sunrise

shine down on you and me

see you in the morning

look at you laying there

finally got you in my bed

all in the dark going threw my head

see you in the morning

sorry i cant help but stare

soon as you turning over

i'm gonna hold you closer

in the morning, good morning

shobedowop, shodowop under the cover

in the morning, good morning

shobedowop, shodowop under the cover

excuse me

if I'm speaking while I'm sleeping

baby I'm dreaming about your

grinding on me

and right before the early birds

start the countdown

and as the birds sing

its about to go down

hello

your up under me

and i don't want no breakfast babe

your everything i need

gotta get you out my t-shirt before we go to work

ill see you in the morning
look at you laying there
finally got you in my bed
all in the dark going threw my head
see you in the morning
sorry i cant help but stare
soon as you turning over
I'm gonna hold you closer
in the morning, good morning

i sacrificed for you
(sacrificed for you)
I'm stuck on pleasing you
(stuck stuck on pleasing you)
its the best part of the day
(best part of the day)
to leave a smile upon your face

ill see you in the morning
look at you laying there
finally got you in my bed
all in the dark going threw my head
see you in the morning
sorry i cant help but stare
soon as you turning over
i'm gonna hold you closer
in the morning, good morning
shobedowop, shodowop under the cover
in the morning, good morning
shobedowop, shodowop under the cover

under the covers babe

ill see you in the morning baby

early in the morning baby
