

The Boys Are Back In Town

Patty Loveless

Gather 'round, ladies, gather 'round
Hear the news that's comin' down
The ships are in and the sails are down
The boys are back in townGet your skirts down off the rack
The boys are in and the boys are back
And no time now for takin' slack
The boys are back in townWell, the boys are back in town
Your true love can be found
Gather 'round the old playground
The boys are back in townThey've been gone for quite a while
Man, it's good to see 'em smile
Now they're loaded up on style
The boys are back in townCome in the house, get out of the car
See 'em coming down the road
Gonna raise some hell 'cause don't you know
The boys are back in townWell, the boys are back in town
Your true love can be found
Gather 'round the old playground
The boys are back in townWell, the boys are back in town
Your true love can be found
Gather 'round the old playground
The boys are back in town
