

# I Believe

## T.I.

So Disappointed  
We all disappointed  
All disappointedAiight  
Now I believe in a lot of things  
Believe karma real, Believe all i can  
Believe the bible is re-written, preacher be bullshitting  
So when they speak believe not a thing  
Believe ML-King had a dream for real  
He in Heaven, and we be dealing with demons still  
Like an episode of Pinky and the brain for real  
Wanna run the world & rule errthing for real  
Well god damn (Hol' Up Hol' Up)  
Whatchu think will happen when you die ma man,(Die ma man)  
Even better whatchu gon do when they push you in the fire ma man  
Well ima a sinner (true) but not like you  
I ain't being malicious in the shit i do  
Well, i might smoke a blunt or two (ugh)  
Minaj every month or two  
Sell i dope to get some money, shit i wanna do law  
But i can't go to school, i ain't go the money to  
Rather give me fifty years than a scholarship  
Anythang to keep me outta politics  
I believe politicians pull a lot of triggers  
The war on drug crack epidemic, all a dat  
The death of Bob Marley & Malcom X  
Pac n Biggie too, but i ain't really sure about dat  
Believe Jesus, die for my sins, dont need no forgiveness for me to hide behind man  
The KKK and the USA got a thang like Superman got for Lois Lane  
Uncle Sam lift a lady just address Us  
Grabbing on the pussy yelling "shawty that thang"  
Now be clear, I ain't tryna this ain't no black thang or white thang  
Its a dead wrong and right thang  
Believe white supremacy, think i'ont see it  
Errthang they tryna bring down on me  
Like the stop and frisk, mass incarceration that perpetuation of recidivism  
That mean they create a system hard to break  
That why many is still behind bars today  
Columbus day u believe a holiday  
What about Capone and Doc Holiday

Lucky Luciano John Gotti day  
Bumpy Johnson and Larry Hoover day  
Happy Meech day Happy Tookie day  
Happy Hitler day sound stupid hey  
That's cause hypocrisy more American than democracy  
Far as I can see the constitution won't for folk that look like me and that's what I believe!  
Wanna be better but you down at the moment  
Give dat shit to god it'll be better in the morning  
Still think your skin make you way more important  
Naaaaahh (Hol' up)  
All this money but you still can't afford me  
Gotta sell your soul just to get up on the Forbes list  
Leader of the generation, Ima get us all in  
Aaaaahhh All your plans ain't worth for damn  
Cus in front of God, you are just a man  
Wanna take advantage of a lesser man  
Build a wall, keeping out the Mexican  
Go to standing rock and wanna poison water, just like Michigan  
I ain't this a bitch  
If I learnt anything, i've seen any bitch can be president (Hold up)  
I say that nigga hostile, get the yellow flare in they nostril (Hold up)  
God never said weapons wouldn't form, he just said they wouldn't prosper  
Stand for your people, ya  
Stand with your brother, its time with your sister, ya  
Stand for your people, ya  
We can't give another fuck  
Message to Americaaaaa  
So Disappointing, we all disappointed  
Bout to do some more play, Oh u want that OA?  
How you doing numbers very similar to my case  
Neighbourhood like a battlefield, we are not safe  
(I believe we are not safe, I believe we are not safe)  
(I believe dat what I believe dat what I believe we are not safe)  
(I believe we are not safe)  
(I believe dat what I believe we are not safe, dat what i believe, dat what i believe, eyy)
