

# Go With Her

[Toby Keith](#)

Yeah, Daddy said, "Son I'm sorry  
You and Sheila ain't getting along  
And if she's so dead set on leavin' you, boy  
Why ain't she already gone? Yeah, you better break out some sweet talkin'  
'Cause I promise you you're gonna miss her  
And I know what I'd do, if my baby left me  
Pack up my things and go with her" You don't stay with the one you can live with  
It's the one, you can't live without  
It's the one that's got you tore up in pieces, boy  
It's the one, you keep talking about Pride's a tough pill to swallow  
It'll leave you lonely and cold and bitter  
So what you need to do, if she's gonna leave you  
You better pack up and go with her Daddy said, "Son, I'm through preaching  
I've said, all I'm gonna say  
Now if you love her as much as I think you do  
You're a fool if she gets away She can go anywhere that she wants to  
Don't give up, no don't quit her  
Just do like I did when your momma left me  
Hell, I just packed up and went with her" You don't stay with the one you can live with  
It's the one, you can't live without  
It's the one that's got you tore up in pieces, boy  
It's the one you keep fretting about Pride's a tough pill to swallow  
It'll leave you lonely, cold and bitter  
What you need to do, if she's gonna leave you  
Pack up your things and go with her You don't stay with the one you can live with  
It's the one, you can't live without  
It's the one that's got you tore up in pieces, boy  
It's the one you keep crying about Pride's a tough pill to swallow  
It'll leave you lonely, cold and bitter  
What you need to do, if she's gonna leave you  
You better pack up and go with her Yeah, I know what I did  
When my baby left me  
I packed up my things and went with her
