Ready For Home

Capital Kings

(Ready For Home)
(Ready For Home)

Uh yeah
I wish that I could find a way
To hit fast forward just to get through this maze
And to see that day when I'm finally headed home
Forget that feeling and being lost and on the roam

Yeah, I know
I've been out of whack
But, I know
You know how to bring me back
'Cause
Even when I slip and fall
You always got my back through the thick of it all, yeah

Walkin' these circles got me comin' unglued
Gave you my heart and then I stole it from you
My weary head is swimmin' straight for your shore
I feel a calling
From the one I adore

Ready for Home
(So won't you take me there)
Ready for Home
(Out of this atmosphere)
I'm runnin' into your arms
I'm steppin' out of the cold
Ready for Home
I'm Ready for Home

I remember that very day
I said I would be different, that I'd always find a way
To let you know you'd always be the one
I kept my eyes on, but that's not what I've done

'Cause you know
I try to play my part
And you know

I always come up short
I know
I should be forever in debt
But that's something that you said you'd always choose to forget

Walkin' these circles got me comin' unglued
Gave you my heart and then I stole it from you
My weary head is swimmin' straight for your shore
I feel a calling
From the one I adore

Ready for Home
(So won't you take me there)
Ready for Home
(Out of this atmosphere)
I'm runnin' into your arms
I'm steppin' out of the cold
Ready for Home

So if you're
Leavin' with us, sing it out loud
Livin' it right, there ain't no doubt
If you're with us, sing it out loud
We're following the light, yeah
[2x]

(Ready For Home)
(Ready For Home)

(Out of this atmosphere)
I'm runnin' into your arms
I'm steppin' out of the cold
Ready for Home

(I'm Ready for Home)
So if you're
Leavin' with us, sing it out loud
Livin' it right, there ain't no doubt
If you're with us, sing it out loud
We're following the light, yeah
(Ready For Home)
(Ready For Home)
