

Fast Train to Grandma's

Frances England

I looked at your picture one hundred times today
You make me feel so good about everthing you say
I wish you lived closer so i could see you all the time
Letter are nice but not enough to get you out of m mind
I will get on fast train to you and hop on the fast train to me
we will meet somewhere in the middle and have a slumber party
I will get on fast train to you and hop on the fast train to me
We will meet somewhere in the middle, so i can tell you how much you mean to me

My Grandma (2x)

Walking on the Garden and i canâ€™t believe how much you know
The name of every plant and flower, what they like and how they grow
The things we talk about they stay with me so long
You know me inside and out and every minute with you makes me Strong
I will get on fast train to you and hop on the fast train to me
we will meet somewhere in the middle and have a slumber party
I will get on fast train to you and hop on the fast train to me
We will meet somewhere in the middle, so i can tell you how much you mean to me

My Grandma (2x)

Picking black berry's and sharing ice creams cones
Counting the lamp posts flashing on the front porch o four home
Dancing in the kitchen and you throwing me around
The happiest days is when we are together and in the same town
I will get on fast train to you and hop on the fast train to me
we will meet somewhere in the middle and have a slumber party
I will get on fast train to you and hop on the fast train to me
We will meet somewhere in the middle, so i can tell you how much you mean to me

My Grandma (2x)
