

# Dan Takes Five

## The Georgia Satellites

Stuffed my heart in a bag slammed the back door  
If I get home it'd be a home no more  
Took off runnin' in the middle of the night  
I was aimed for anything that felt half right  
Look out baby I'm gone a little ride  
I see my name written on the center line  
Moon looks good air is cool  
Every bone been broken in the golden rule

Well I'm flyin' through Dothan with radio  
Taylor's ole time opry's playin' hank snow  
Sing's my nightmares in his song  
I say I'm with ya man I'm just movin' on  
Look out baby your wish came true  
You got your freedom the house and the whole canoe  
I got the things that I need  
I took the car, my pride and three pairs of jeans

My brain is bleedin' got nails in my spine  
But I ain't gonna stop for that empty line  
Radio's fadin' road's like a snake  
It's two in the mornin' and I'm wide awake  
Look out baby gates of Eden got closed  
But New Orlean's open see the pretty lights glow  
I'm goin' in to get myself lost and found  
It didn't take too goddamn long to tear a good thing down

It may not be ideal but at least we're not running at the mouth  
I-10 to San Anton' woke up and went south  
Fleeced at the border for thirty five and some change  
But that's a small price to pay runnin' from the pain  
Look out baby I'm gone a little ride  
There's a brush fire on the highway gonna burn both sides  
Wish I could throw our sins in the flame and smoke  
I'll call you up if and when I reach hope

Gone a little ride  
Baby I'm gone  
I'm gone a little ride  
Baby I'm gone

I'm gone a little ride  
I'm gone gone gone  
I'm gone a little ride  
I'm gone gone gone gone gone gone gone gone gone gone  
Gone gone gone gone gone gone gone gone gone  
And you can kiss it bye bye bye
