 Translation Your small, cold hands and trembling lips
 Able to carry on as if nothing has happened
 Are you afraid of remembering someone?
 Struggling to swallow the words bubbling up to your lips
 Your back view is like falling white snow
 Melting bit by bit Just like the star that doesn't leave the dark night sky
 We'll carry this dream forever
 together with love and trust
 If I were that person
 Once again, I'd hug your hardened heart
 Tightly in my arms forever Against the wall of reality (Even the coldest of hearts)
 At the end of the flowing tears
 The fuzzy stream of light
 (Shines brightly in the darkness)
 Passing through that time Able to feel each other's body heat
 In the heart that stops breathing Everyone has scars
 And heavy sighs
 I'm trying to find that space in time
 When I can draw you into my arms
 I can't believe how just whispering
 To you make me so nervous
 Till we can be together
 In my world Alone in the end of time (my heart)

Because you were left alone (Don't be afraid)Till the end of time I'll (Let you know my love)
I'll protect you because I love you
(You know, I'll let you know my love)Just like the star that doesn't leave the dark night sky
We'll carry this dream forever
together with love and trust
If I were that person
Once again, I'd hug your hardened heart
Tightly in my arms forever
