Steamroller

Saga

You got my motor running
Slide me into gear
You don't need directions
We're not driving far from here
I'm out here waiting for someone just like you
Had to leave my lights on
Now my battery needs some juice
I want you to remember me
So rub my bumper nice and clean
If it's good for you, it sounds good to me
Don't you want to ride a....
Steamroller - I'm built for comfort not for speed
Steamroller - Oh I've got everything that I need
Steamroller - Take me for a ride
Steamroller - Sit up, sit down, sit up
Sit down on me and drive
Where the road looks bumpy
You'll always have the key
If you think I'm rusty
Just pour a little oil on me
When I start to rumble
You know I'm on my way
As long as you are driving
Oh, I'll do anything you say
