

# Speak My Language

## The Cure

It was only yesterday, waving arms across the street  
Your white face left me blue  
Oh, how can I say all the things I have to say to you?  
All the people here all look the same  
The little time I spend with you, we drink each other dry[Incomprehensible]  
Well, now, speak my languageIt was only yesterday  
My eyes touched yours across the street  
Cut the words and waved goodbye  
And dropped off the edge of the world[Incomprehensible]  
Speak my language, speak my language[Incomprehensible]  
Speak my language  
[Incomprehensible]
