

# **Flippant**

## **Puscifer**

You know you left us in pieces, you know you left us this way.  
You know you left us in pieces, you know you left us this way.  
Flippant reactions and choices, your bullet pierced our grenade.

And now it's off to the races, a coward running away.

Flippant reactions and choices,  
You know You know You know You know  
your bullet pierced our grenade.  
And now it's off to the races, a coward running away.
