Shanghai Lil

Al Hibbler

I've covered every little highway
And I've been climbing every hill
I've been looking high and I've been looking low
Looking for my Shanghai LilThe stars that hang high over Shanghai
Bring back the memory of a thrill
I've been looking high and I've been looking low
Looking for my Shanghai LilI learned to love her
The little devil was just a butterfly
But you'd discover something on the level
Shining in her eyeOh, I've been trying to forget her
But what's the use, I never will
I'll be looking high and I'll be looking low
Till I find my Shanghai Lil
