Silver Ending

Cloudscape

Night falls your... voice... again
The... coming quick my thoughts
Night curse my life... myself
Come...Turning my own cane
Living all behind
Directed by the moon
Control...
Somewhere start this
Give me redemption
Day time with all the scary waking nightmare...
Cry no more, give you peace
First turns I'll to meChorus:
Let the holy silver ending
Many has gone by
Need too much to lay me down
Let the holy silver end me now all this time
Need too much to lay me down but try
Let my fire fadeFor darkness cause my name tempted to resist
I'm bout to this fates
Controls my every heart...
Somewhere start this
Give me redemption
Play time control the scary awake the night...
Cry no more, give you peace
First turns I'll to meChorus:
Let the holy silver ending
Many has gone by
Need too much to lay me down
Let the holy silver end me now all this time
Need too much to lay me down but try
Let my fire fadeCome and tearing leave... from me
The power build enough inside
End it I want humanity... long for sight light
Never moon lightGive me redemption
Need too much to lay me down ah
Let the holy silver ending me now all this time
Need too much to lay the try
Let my fire fade
