

# Beneath Your Skin

## I Am Apollo

It's on my soul  
But does it matter  
I fought in chains  
Now she ain't pulling me down I know you gave us up  
Get down And I need someone  
It's in my way now  
Memories  
Memories  
And remembering you  
Remembering us  
What's that beneath your skin  
Won't let it close to my heart But I ain't so involved  
Release you  
I've got the same sense  
'Bout when tomorrow  
She isn't the sun  
But what's beneath your skin  
Mumma, and judger, and goddam beliefs And fall, brace It's on my soul  
Would she not see it  
Lift up my dreams  
But she ain't following now  
Don't know what you gave up  
Get down Go collect your soul  
It takes a heart like this, to leave right now  
Go collect your soul  
It breaks a heart like this, to leave right now  
Go collect your soul  
It takes your part of this, to leave right now  
Go collect your soul  
It takes a heart like this, to breathe right now
