

# Happy Day

## Talking Heads

In my sensations, I believe that  
I was born with the things that I know  
I want to talk like every  
Before I decide what to do  
And I fell all over  
And I couldn't stand up  
I can't be critical  
I can't, won't stop  
Such a happy day for me  
Bring a happy day to me  
Send a happy day to me  
And a happy day  
Came to me, come to me, here it come  
I'm only looking  
Feel like my heart has a will of its own  
I feel, feel nice inside  
Right here and now it's summer again  
The story I told  
The story I made up  
I was foolin' around but I

I can't stop  
Such a happy day for me  
Bring a happy day to me  
Send a happy day to me  
And a happy day  
Come to me, come to me, here it come  
This boy is in motion  
Some density moved right beside me  
I want my sentence  
Right here but now I'm far away  
A sign was given but  
Many years have passed  
It cost a little bit to love you  
But I won't, can't stop  
Such a happy day for me  
Bring a happy day to me  
Send a happy day to me  
And a happy day

Came to me, come to me, here it come, it's alright
