

Gypsy Child

Lindi Ortega

When I was just a little girl
i had the biggest dreams
took me from Toronto
All the way to tennessee
daddy's aid to sing it loud
go on and make your momma proud
he what your ment to bewhen I bust out of my cage
boy you should have seen me fly
i ain't into keepin secrets
and watchin life go by
I got the whole world at my feet
i skipped along to my own beet
that's just how I surviveI'm a gypsy child
that's what my mamma called me
I'm a gypsy child
just a wandering free
traveling and singing songs
skipping out but not for long
gypsy childmomma says she misses me
she's sad to see me go
when I make it back to town
shes always at the show
she knows just what I have to do
the gypsy life means passing threw
I love the open roadI'm a gypsy child
that's what my mamma called me
I'm a gypsy child
just a wandering free
traveling and singing songs
skipping out but not for long
gypsy childAll the world is a stage today
I'll be singing till the day I dieI'm a gypsy child
that's what my mamma called me
I'm a gypsy child
just a wandering free
traveling and singing songs
skipping out but not for long
gypsy childI'm a gypsy child
just a wandering free

traveling and singing songs
skipping out but not for long
gypsy child
