

# I Liked You Right from the Start

## NQ Arbuckle

Show me who you are  
I believe everything I saw  
in a Mexican bar  
somewhere in Alberta

These are times for speaking slow  
and whispering jokes  
Are you making me coffee?  
Are you walking me home?  
Time is moving fast  
everything drags by

Tell me that you want me  
and I won't ask you why  
This is how things begin  
I liked you right away  
You were memories in talking  
If you know what I'm saying

Fall asleep for the night  
in a Mexican bar  
somewhere in Alberta  
I liked you right from the start  
I liked you right from the start  
I liked you right from the start  
I liked you right from the start

---
