

# Broadcast

## Finley Quaye

White leather, mongoose  
Any weather, turn it loose  
From the shadows, monkey  
From the suburbs, catchy catchy  
Left my car, slowly slowly  
At the bar, softly softly, healthy broadcast  
Through the trees and the breeze  
With a ninja, Subaru  
Faith love and charity  
No Glenn Hoddle, no supermodel  
No Dennis Wise with his home and away eyes  
No David Vine, no John Virgo  
You love Greenpeace, I love green pea  
Butter bean and broad bean  
Black-eye beans and kidney beans  
Mung beans an' runner bean  
Be courageous go to Barbados  
You believe me then you leave me  
Me myself we ourselves, green white and gold  
Red white and blue, red gold and green  
Get protected then get connected  
Broadcast ghetto blast  
Dig it all, digital, dig it all, digital  
Birkenstock's and Reebok's  
You do detox, you do retox  
You don't get no orthodox  
So I'll feed you if you're ill  
Keep it clean and serene  
Train you make you faster  
Make you able run your label  
Or your station or your money  
Or your life, broadcast, true true true
