

# Birds and Bees (feat. Mandy Moore)

[Ben Lee](#)

I get the feelin everyones feelin the same  
Like somebody somewhere should be callin their name  
Prayin in churches or out in the club  
Everyones lookin, lookin for love Birds and bees and songs like these  
'Cause we want what we want and its natural, baby  
Birds and birds and bees and bees  
'Cause we want what we want and its natural, baby Its not a secret, its not a crime  
Ive never done this before, well, neither have I, yeah right  
So I blow out the candles and Im makin a wish  
Come over here babe and give me a kiss Birds and bees and songs like these  
'Cause we want what we want and its natural, baby  
Birds and birds and bees and bees  
'Cause we want what we want and its natural, baby And its natural, baby I get the feelin everyones feelin the  
same  
You lean in close and you whisper my name  
Youre whispering, youre whispering, life is but a dream  
And you are so beautiful, you make me wanna scream Birds and bees and songs like these  
'Cause we want what we want and its natural, baby  
Birds and birds and bees and bees  
'Cause we want what we want and its natural, baby And its natural, baby  
And its natural, baby
