

# No One Knows I'm Gone

**Scarlett Johansson**

Hell above and Heaven below  
All the trees are gone  
The rain made  
Such a lovely sound  
To those who are  
Six feet under ground  
The leaves  
Will bury every year  
And no one knows I'm gone  
Live me golden tell me dark  
Hide from Graveyard John  
The moon is full here every night  
And I can bathe here in his light  
The leaves will bury every year  
And no one knows I'm gone
