

# USA Today

## Down By Law

Turn on your TV now my son  
In north Hollywood I see the guns are blazing  
Well, you can't believe it  
But you'd best believe it boyThis is your USA today, turn up the radio now my son  
A car got jacked in Compton, news at 11  
Just another day in the modern world  
But I still love this land, okay?Well, you can't believe it  
But you'd best believe it boy  
This is your USA todayTake a look and you might see too much reality  
You'll cut your mind along the way  
On the pieces of a broken of a broken world today  
See the pretty news announcer, son?She looks so good with stories  
Of decay and destruction  
Smiling like it was all a video game  
And every anchor looks the sameWell, you can't believe it  
But you'd best believe it  
This is your USA todayLook too hard then you will see too much reality  
You'll cut your mind along the way  
On the pieces of a broken world today  
See the wars so far from hereBrought into my room so crystal clear  
Words and images like these have got me on my knees  
Turn up your TV now my son  
'Cause there's nowhere left to hide, nowhere left to runWell, you can't believe it  
But you'd best believe it  
This is the USA today
