

# Microcastle

## Deerhunter

All I've seen, all I've seen  
Try to describe it  
In the time of all of it Try not to come to bed  
Warm me and I might slip  
I might die, I might live Try to describe it all  
In your time, end it all All I've done, it may be not it  
On and on, it could be my beginning  
All through time, all through time
