The Man That I Am

James Otto

Where do you go when no ones watching only you can see?
I want to know how hot is that fire you burn for me
Cause all my life girl Ive been waiting on a love that strong
And maybe this one aint it and I can tell it wont take longNot as long as Im the man that I am
Light off shades down candles painting shadows on the wall
Aint too hard to understandWhat it does every taste every touch going deeper
Awe and its a feelin that I cant describe
I know you wouldnt understand unless you were the man that I amI want to see all those secrets down there where you hide
I want to be the only man that goes that deep inside
Cause all my life girl Ive been waitin on a love that strong
And baby this one is it I can tell it wont take longNot as long as Im the man that I am
Light off shades down candles painting shadows on the wall
Aint too hard to understandWhat it does every taste every touch going deeper
Awe and its a feelin that I cant describe
I know you wouldnt understand unless you were the man that I amNot as long as Im the man that I am
Light off shades down candles painting shadows on the wall
Aint too hard to understandWhat it does every taste every touch going deeper
Awe and its a feelin that I cant describeNot as long as Im the man that I am
Light off shades down candles painting shadows on the wall
Aint too hard to understandWhat it does every taste every touch going deeper
Awe and its a feelin that I cant describe
I know you wouldnt understand unless you were the man that I amLet me touch you one more time
Let me taste whats on your mind
Let me be right here beside you
When you wake up babyI want to be the only man to touch you
I want to be the only man that pleases you
And teases you and takes you higher than youve ever been
Longer than youve ever seen stronger than youve ever seen
