

Cyanide

The Early November

Trace my shape here on the wall
Color in my eyes and hair with chalk
And nobody will know that Iâ€™m gone
Iâ€™d hate to leave an impression
It's a battle just to talk, feel defeat when I walk
Want to smash and moan but I join the flock
Donâ€™t believe in depression
I just gutted myself to prove that Iâ€™m different
Iâ€™m different

Drowning your problems into a rat hole
Sooner or later youâ€™re gonna start the float
Let's just hope nobody will know
With your drips as lethal as cyanide
It's not much, we might be alright
But after a while nobody can hide

The color is there
And it starts to fade so fast
Yeah, the equal signs on my mouth try to heal
My separated path
I not wish, but yearn to move along
We need to clear the way so my baggage clears the wall
Cover the place with post it notes till I have shown what I had done

Drowning your problems into a rat hole
Sooner or later youâ€™re gonna start the float
Let's just hope nobody will know
With your drips as lethal as cyanide
It's not much, we might be alright
But after a while nobody can hide

Until we donâ€™t feel anything

Drowning your problems into a rat hole
Sooner or later youâ€™re gonna start the float
Let's just hope nobody will know
With your drips as lethal as cyanide
It's not much, we might be alright
But after a while nobody can hide

Until we donâ€™t feel anything, anymore
