

# Start A New Life

## LESANDS

Go home, pretender  
I think this is the end here  
It's been a long time decidin'  
But I think I've found the right end  
You're gonna go away and start a new life  
Forget today, start a new life, start a new life  
Hopes crushed and battered  
But you laugh as if it didn't matter  
This joke is gonna turn blue  
And I won't be there to hold you  
You're gonna go away, start a new life  
Forget today, start a new life, start a new life  
Go home, debater  
It was soon and now it's later  
And that's only a piece, a piece of paper  
So don't you stand there a-laughin' and a-wavin' it  
You're gonna go away and start a new life  
Forget today, start a new life, start a new life  
Start a new life, get out of my life  
You gotta go away, forget today  
Start a new life, you gotta start a new life  
You gotta go away, start a new life  
Forget today [Incomprehensible]  
Start a new life, you gotta go away, go away  
Start a new life
