

Tiny Hearts

Kimberly Henderson

Sometimes I feel like my whole world is crashing down
While all my friends are being young and dumb and playing around
They're out all night living a life that I just had to let go
I watch you sleep right next to me
It's you and me on our own
Sometimes I feel there's a world out there I'll never know

But I know who I am
Yeah, I know who I am
Tiny hearts are in my hands
Yeah, I know who I am
Yeah, I know who I am

Now I was scared to take a road that I did not understand
And all through time I considered making other plans
Now I believe all of the things we choose are for a reason
And the life I thought I missed I know they'll soon be leaving
And when the lights go out I know I know a kiss be meaning

'Cause I know who I am
Yeah, I know who I am
Tiny hearts are in my hands
I know who I am

Ooh, ooh ooh ooh ooh
I wouldn't change a thing
If I could go back
Ooh, ooh ooh ooh ooh
Not missing anything
I wouldn't go back

'Cause I know who I am
Yeah, I know who I am
Yeah, I know who I am
Yeah, I know who I am
Tiny hearts are in my hands
I know who I am

'Cause I know who I am
