

# Automatic Love

[Kylie Minogue](#)

Automatic love (automatic, automatic) Won't you please forgive me  
I feel a stranger here  
It seems that I've lost all my memories  
And all of my fears I know why I'm so crazy  
I don't care  
'Cause it you that makes me  
So beware You put me on (automatic love)  
There's no return, I'm on (automatic love)  
Nothing can stop me, I'm on (automatic love)  
Come on and turn it on (automatic, automatic)  
Turn it on I didn't feel you enter  
In my main menu  
But every time I touch the key  
The screen is showing you I know why I'm so crazy  
I don't care  
'Cause it you that makes me  
So beware You put me on (automatic love)  
There's no return, I'm on (automatic love)  
Nothing can stop me, I'm on (automatic love)  
Come on, turn it on (automatic, automatic)  
Turn it on No manual control, it's automatic  
So beware You put me on, woah (automatic love)  
Automatic love (automatic love)  
Nothing can stop me, I'm on (automatic love)  
Come on and turn it on, yeah (automatic, automatic)  
There's no return, I'm on (automatic love)  
Nothing can stop me, I'm on (automatic love)  
Come on and turn it on, turn it on Come on, turn it on  
Turn it on
