Crash

Methods of Mayhem

Here's some music to crash your car to
Ain't no use its to fast to undo, crash, crash
60 shots of Jack and I feel you
Equilibriums off and its pure pandemoniumWe're going too fast, we're going too fast
Ain't no way, this is ever gonna last
We're going too fast, we're gonna crash
I'm just a wreck so what the Hell did you expectCockeyed joyride swervin' between the lines
Rear view mirror makin' me loose my mind
All liquored up and he's back behind the wheel again
Got no idea where he's goin' or where he's beenWe're going too fast, we're going too fast
Ain't no way, this is ever gonna last
We're going too fast, we're gonna crash
I'd push my luck so what, I just don't give a fuckGoing to fast, going to fast
Going to fast, going to fast
Going to fast, going to fast
Going to fast, going to fastThe sun's coming up
As you start to feel your coming down
God damn give me hope
So I can kiss the groundWe're going too fast, we're going too fast
Ain't no way, this is ever gonna last
We're going too fast, we're gonna crash
I'm just a wreck so what the Hell did you expectGoing to fast, going to fast
Going to fast, going to fast
Going to fast, going to fast
Going to fast, going to fastWe're going too fast
