Panorama

Laibach

Should be clear with the fact
That we are not moving away
From the road that we beat the path for in 48
That is to say we have our own wayWe always say what is right on this side
And what is not and what is right
On the other side and what is notIt should be clear to everyone
That we cannot be no ones
Appendage of nobody's politicsThat we have our own point of view
And that we know the worth of what
Is right and what is not right
