

# Silver Lining

David Gray

Silver Lining.

Take this silver lining keep it in your own sweet head  
Shine it when the night is burning red  
Shine it in the twilight  
Shine it on the cold cold ground  
Shine it till these walls come tumbling down  
We were born with our eyes wide open  
So alive with wild hope now  
Can you tell me why time after time  
They drag you down  
Down in the darkness deep  
Fools in their madness all around  
Know that the light don't sleep  
Step into the silence take it in your own two hands  
And scatter it like diamonds all across these lands  
Yeah yeah yeah yeah  
Blaze it in the morning wear it like an iron skin  
Only things worth living for  
Innocence and magic, amen  
We were born with our eyes wide open  
So alive with wild hope now  
Can you tell me why time after time  
They drag you down  
Down in the darkness deep  
Fools in their madness all around  
Know that the light don't sleep  
We were born with our eyes wide open  
So alive with wild hope now  
Can you tell me why time after time  
They drag you down  
Down in the darkness deep  
Fools in their madness all around  
Know that the light don't sleep  
Time after time they drag you down  
Down in the darkness deep  
Fools in their madness all around  
Know that the light don't sleep  
Know that the light don't sleep.
