

# Never Hold Back

## Nathan Dalton

{Cool, okay, I'm a let y'all take it on your own, right now  
    Why don't y'all do me a favor  
        What?  
            Tell me a joke  
                Why did the chicken cross the road?  
                To get five dollars from her baby daddy  
            You got that, we gon' roll with that right there, aight then}  
        Gilla house, muthafucka, Gilla house  
        Gilla house, muthafucka, Gilla house  
        Yeah, another Def Jam, but we don't make stars  
        We just sign 'em, uh huh, that's what's up, Big Sox  
            I'm on the grind, can't wait to shine  
        Fuck that, I pull your blinds, catch you F'in' with mines, no go 'head  
            I got no time, hate to be wastin' time  
                Muthafucka know the name  
        And know that I ain't feelin' y'all lames, like Novacaine  
            Ain't no way you can stop the train or the conductor  
            Of the track, muthafucka, that's E 3, my love for the game  
                It's just not the same, unless it's Gilla house  
        And Wu-Tang Clan, in the house, cop them thangs  
            Live together and pop the chain, know your lane  
        Fuck cocaine, stick up, 'bout to blow your brains off the map  
            The flame is back, it's the amazing  
                J-blazin' grapes of wrath turn to raisin'  
                What part of the game is that? We not playin'  
                Y'all tryna raise the price at the door, we not payin'  
                So watcha, watcha want? You kids are slum  
        And son got knuckles in his Air Force Ones, come on  
            Niggaz never seen it this raw  
                (But nothing's gonna hold me back)  
                Keep the heat up by the big dog  
                (But I don't wanna hold you back)  
                A nigga gotta get this dough  
                    (I just wanna live my life)  
                A nigga gotta get this dough  
                    (Live your life)  
  
        Yo, yo, on the air, thought you dead? But I returned  
        To give you what you waited four years, now to burn

Hold your head and know your ledge, your life flash by  
Hey, kid, walk straight, master your high  
Method Man, Method Man, man whoa, like Black Rob, go  
Catch me in the West Wing, I might "Rob Lowe"  
Yes, I can, yes, I can, can, tap your jaw  
And tell whatever chick that I'm with, slap your broad  
This is it, I'm stuck with y'all and y'all stuck with me  
In the lap of luxury, where the hell's, cut for free?  
And the kid can't fuck with y'all, 'til I got a tree  
On some new property, at my new pot to pee, have mercy  
Mercy me, things ain't what they used to  
Soon as you get your shot on the top, somebody shoot ya  
These rhymes, ain't nursery, life's a bitch  
Then you go to court, and she take half your shit, come on  
Niggaz never seen it this raw  
(But nothing's gonna hold me back)  
Keep the heat up by the big dog  
(But I don't wanna hold you back)  
A nigga gotta get this dough  
(I just wanna live my life)  
A nigga gotta get this dough  
(Live your life)  
(But nothing's gonna hold me back)  
Keep the heat up by the big dog  
(But I don't wanna hold you back)  
A nigga gotta get this dough  
(I just wanna live my life)  
A nigga gotta get this dough  
(Live your life)  
Live my life, my life, your life, yeah, Mr. Meth, Big John Studd, yo  
Y'all know how I do it, screw it, all day, everyday  
You know what I'm sayin'? Stinkin', drinkin' and fightin' crime  
Staten Island, stand up, we in the muthafuckin' house  
Come on!
