

Just a Little Bit of Love

Ocean Colour Scene

Just a little bit of love
I was alone, I was afraid
I couldn't face another day of pain in my life oh oh oh
I called your name and you were there
Just like an answer to a prayer
You made it all right oh yeah So I give my heart
And I give my soul to you oh I do
And now I know
I know I found the truth oh hey Just a little bit of love's gonna turn it around
A little bit of love can do it
And just a little bit of love's gonna turn it
Around, and around, and around, oh yeah I found the truth I found the way
I'm standing in the light of day
I got the power
I'm not worried any longer
No I'm only getting stronger by the hour You can move a mountain
Or calm the stormy sea
There's no doubt about it
I truly do believe Just a little bit of love's gonna turn it around
A little bit of love can do it
And just a little bit of love's gonna turn it
Around, and around, and around, oh yeah Just a little bit of love's gonna turn it around
A little bit of love can do it
And just a little bit of love's gonna turn it
Around, and around, and around, oh yeah And it can free your mind
Yes it can free your soul
Yes it can free your mind
And it can free your soul Free your soul let it go let it go
Just a little bit of love just a little bit of love
Yeah Just a little bit of love's gonna turn it around
A little bit of love can do it
And just a little bit of love's gonna turn it
Around, and around, and around, oh yeah Just a little bit of love's gonna turn it around
A little bit of love can do it
And just a little bit of love's gonna turn it
Around, and around, and around, oh yeah
