

# Christmas Heart (feat. Wendy Vaughn)

**Terrace Martin**

Outside I see people laughing, holding hands and standing close  
But I feel my world collapsing while I sit here all alone  
What would I give for this wish start tonight  
Saint Christmas hope to my heart, make it right Christmas, made my broken heart  
Christmas, I need a brand new start  
And even money can't find and sorry can't give  
I want a new life, this can't be the end  
Christmas made my broken heart Family together, joyous moment  
Open presents by the tree  
So much loving and wrapped emotion  
But how's busy loving me?  
Where do I belong, hear my song throw my cries,  
Shine down you lied Christmas time make it right Christmas, made my broken heart  
Christmas, I need a brand new start  
And even money can't find and sorry, can't give  
I want a new life, I want to begin  
Christmas, made my broken heart
