Be Mine

Happy Sometimes

[Verse 1]

Broken down, eroded
Comin' out, guns loaded
And I, thought I could catch a bullet
You're a titanium work of art
Someone somewhere to time the car
You're drowning your emotions
Your eyes stay always frozen
Flowers die in the desert, we survive the weather

[Chorus]

So be mine
You're like a Valentine
Your cold heart, melting next to mine
There's no need to apologize
We both need somewhere we can hide
Why don't we just love?
While we're close enough to touch?

[Verse 2]

We're all entertained
Coming ground we've painted
Earthquakes, heartbreaks crack the pavement
We're only waiting for the fires to start
So we can run back into the dark
Just commit to motion, we'll find out where we're going
Flowers die in the desert, we survive the weather

[Chorus]

So be mine
You're like a Valentine
Your cold heart, melting next to mine
There's no need to apologize
We both need somewhere we can hide
Why don't we just love?

While we're close enough to touch?

[Bridge]

I need saving, you're gonna save me
From my hollow heart, I've been saving
For someone like you come on baby
Let it all go, let it all go

I need saving, you're gonna save me
From my hollow heart, I've been saving
For someone like you come on baby
Let it all go

Let it all go

[Chorus]

So be mine
You're like a Valentine
Your cold heart, melting next to mine
There's no need to apologize
We both need somewhere we can hide
Why don't we just love?
While we're close enough to touch?
