Cu Chulain

Therion

Tied on a stone, he's born as hero
Died on his feet, he's known forever
Born with a halo of frenzy, you black-browedC Chulainn, C Chulainn
Mighty C Chulainn, even death you defy
C Chulainn, still he stands where the raven lands
With Emer as his brideSmall and youthful, the son of Lugh and Deichtine
He killed the guard dog, killed the monster of Culann
Yeah, kill the monster of Culann in warp spasmC Chulainn, snared by love
Mighty C Chulainn, only love makes you weak
You left your wife and fell for fand
Mighty C Chulainn, return to EmerDrink the cup and wipe away all the memories
You will ride to the dawn
Ride with Leg, pass the sea
Bring your loyal wife, bring your ever true brideC Chulainn, C Chulainn
Mighty C Chulainn, even death you defyC Chulainn
Still he stands where the raven lands
With Emer as his bride
The legend of C Chulainn flies across the land
Like the spear of your fateC Chulainn
Still he stands where the raven lands
With Emer as his bride
The legend of C Chulainn flies across the land
Like the spear of your fate
