

Ways + Means

Mike Doughty

The best I ever did with my life
Said just three honest words to you
Three droplets in a pail of lies
Three gems among the alibis Yes, I know the ways and means I are, Ma
I know the ways and means I are The best I ever did with my love
Said your name on the microphone
You heard it at the restaurant
Cashed out and brought your tips on home Yes, I know the ways and means I are, Ma
I know the ways and means I are
Yes, I know the ways and means I are, Ma
I know the ways and means I are Yes, I know the ways and means I
I know the ways and means I
I know the ways and means I are Yes, I know the ways and means I
I know the ways and means I
I know the ways and means I are The best I ever did with my bucks
Put two down on your horse to show
She lost but just kept racing round
Kept running til the sun went down Yes, I know the ways and means I are, Ma
I know the ways and means I are
Yes, I know the ways and means I are, Ma
I know the ways and means I are Yes, I know the ways and means I
I know the ways and means I
I know the ways and means I are Yes, I know the ways and means I
I know the ways and means I
I know the ways and means I are Yes, I know the ways and means I
I know the ways and means I
I know the ways and means I are
