

Jennifer's Body

Hole

And I know it, I can't feel it
Well, I know it enough to believe it
And I know it, I can't see it
But I know it enough to believe it It's bettering you, it's bettering me
My better half has bitten me
It's bettering you, it's bettering me
Sleeping with my enemy myself, myself The pieces of Jennifer's body
Found pieces of Jennifer's body
Found pieces of Jennifer's body Just relax, just relax, just go to sleep
Just relax, just relax, just go to sleep You're hungry, but I'm starving
He cuts you down from the tree
He keeps you in a box by the bed
Alive but just barely He said, "I'm your lover, I'm your friend
I'm purity, hit me again"
With a bullet, number one
Kill the family, save the son himself, himself The pieces of Jennifer's body
Found pieces of Jennifer's body
Found pieces of Jennifer's body Just relax, just relax, just go to sleep
Just relax, just relax, just go to sleep Now, you're mine
