Glass War

Warped Tour

Glass war, glass war, glass war, glass war, it's a glass war
Glass war, glass war, it's a glass war
Glass war, glass war
It's a glass war
Cause you can see right through the poison
It's a glass war
Cause we all know the activities
It's a glass war
Cause it's made of smoke and mirrors
It's a glass war
It's a glass war
It's a glass war
Cause only poor men are dying in the
Gas war
Cause we know why it was started
It's an ass war
Cause the president's an asshole
It's an ass war
It's a glass war

It's a gas war
Cause the starters are all victims of the
Glass war
The slogan men were starters of the
Last war
Now the southern men are starters of the
Glass war
It's a Glass War
It's a Glass war
And the shards are gunna start another glass war
And the shards are gunna start another glass war
And the shards are gunna start another glass war
And the shards are gunna start another glass war
And the shards are gunna start another glass war
It's a glass war
It's a glass war
