Set It Off

Queen Latifah

Do we look? Where is love?
Has it gone? Do we search or move on?
Hear the wind as it blows
And my heart says the next time I'll knowSet it off, I suggest y'all
Set it off, I suggest y'all
Set it off
Come on now, set it offSet it off on the left y'all
Set it off on the right y'all
Set it off
Come on now, set it offHolding on, friends around
All together searching for a way out
When it's time, will we know?
Or will life grant us no second try?Set it off, I suggest y'all
Set it off, I suggest y'all
Set it off
Come on now, set it offSet it off on the left y'all
Set it off on the right y'all
Set it off
Come on now, set it offNow it's too late to work it out
I'm in too deep to just pull out
There ain't no way I'll turn away
Nothing to do but set it offSet it off, I suggest y'all
Set it off, I suggest y'all
Set it off
Come on now, set it offSet it off on the left y'all
Set it off on the right y'all
Set it off
Come on now, set it offMe hear police, them a chat about me just one time
Me live the life, love money, that's two crimes
What will be my destiny? Hey, heyMe say silly of me to think that I could
Ever get away with crime
What will I do? HeyWhen they come for you, check it
I got nowhere to go, nothin' to lose, I'm lost
Who rotton but Cleo, hot like ultra reelsWit' my back to the wall, I put my gat to not dog
Replace your playa's ball with a number one ball
Situations up in here got me capable of sinnin'You grinnin'? Watch me speed stick ya like Mennin
Lettin' it off, settin' it off, then beginning
Pinnin' these ill rhymes, representin' ill women, set itSet it off, I suggest y'all
Set it off, I suggest y'all

Set it off
Come on now, set it offSet it off on the left y'all
Set it off on the right y'all
Set it off
Come on now, set it offSet it off, I suggest y'all
Set it off, I suggest y'all
Set it off
Come on now, set it offSet it off on the left y'all
Set it off on the right y'all
Set it off
Come on now, set it off
