Fantasy

Timbaland

Let me show you boy
Are you ready?
Fantasy
It could be, couldn't we
Wildest thing, ever dreamed, boy
So what will it be?
Just lookin' at you, shorty, lights a flame inside
I'm wonderin' if you can come and help put out the fire
But you can get at me baby, tell me what you like
'Cause I can be your all boy, I can be your love toy
If you ain't busy baby, I'm all yours tonight
Let imagination take us for a thing in mind
Travellin' in a dream we can bring something to life
That no one's ever seen yet, can I?
Show you what it's like beyond your fantasy
It could be, couldn't we
Might just get it hot up in the
Wildest thang ever dreamed, boy
Let me show you what it's like beyond your fantasy
It could be, couldn't we
Might just get it hot up in the
Wildest thang ever dreamed, boy
'Cause think of all the tasty things that we can try
The karma you can have being within money can buy
We ain't even gotta keep it quiet
Boy, all my walls are sound proof, I can scream your name boo
Let me tell ya house, we will not disturb
I found a place our neighbors you get all that you deserve
Boy, I got it somewhere if you can conjure up the nerve
To come see what if feels like, can I ?
Show you what it's like beyond your fantasy
It could be, couldn't we
Might just get it hot up in the
Wildest thang ever dreamed, boy
Let me show you what it's like beyond your fantasy
It could be, couldn't we
Might just get it hot up in the
Wildest thang ever dreamed, boy
Touch it, touch it, feel it, roll around it, and if you like

Taste it, taste it, and embrace it again a second time
Don't you waste it, you'll regret it, 'cause I can satisfy
Any fantasy that you can come with, can I ?
Let me show you what it's like beyond your fantasy
It could be, couldn't we
Might just get it hot up in the
Wildest thang ever dreamed, boy
Let me show you what it's like beyond your fantasy
It could be, couldn't we
Might just get it hot up in the
Wildest thang ever dreamed, boy
Let me show you what it's like beyond your fantasy
It could be, couldn't we
Might just get it hot up in the
Wildest thang ever dreamed, boy
