

Fangs

Night Riots

Shadows follow me, but she's always out of reach
But she's my favourite thing to see
Her hook is my escape, affliction of my fate
And she's everything I need, yeahSo stick your fangs, fangs, fangs, into me
Only for you, you, you, I'll bleed
Can't you see, that you can set me free
So stick your fangs, fangs, fangs, into meWithout her in a gloom, cold sweating in my tune
She was with me
She used to pale blush, to cast sun into my room
Shes the only light I need
So stick your fangs, fangs, fangs, into me
Only for you, you, you, I'll bleed
Can't you see, that you can set me free
So stick your fangs, fangs, fangs, into meHear me call
I will wait, if you will wait, for
Hear me call
I will wait, if you will wait, for
Hear me call
I will wait, if you will wait, for
Hear me call
I will wait, I will wait
So stick your fangs, fangs, fangs, into me
Only for you, you, you, I'll bleed
Can't you see, that you can set me free
So stick your fangs, fangs, fangs, into me
