

# Even After You're Gone

[Michael Flynn](#)

From the time of conception they knew there was something wrong  
But to leave you there on your own, you wouldn't last long  
It's so hard to let it go, even after you're gone  
She came from the city with nothing to live for  
In the time it takes to learn and love, we can never know  
She wrote all the things that were too hard to say  
It's so hard to let it go, even after you're gone  
Holding her breath underwater till it's all erased  
The lies she has to tell open the lines on her face  
She's going home  
She's going home
