Tell Me I'm The One

Survivor

If you need any love tonight
I'll give you all you need tonight
There you stand with you back to the wall
You got a bad attitude
I've watched the way that you run from it all
Does your heart get confused
Would you risk your reputation
Should you even take the chance
Or are you scared by what you'll say
When the rules aren't in the way
There's no time for hesitation
Let's get on to something real
'Cause if it's love you're lookin' for
There's no need to look anymore
If you need any love tonight
Tell me I'm the one
We'll take the time to do it right
The night lives on
I'll give you all you need tonight
Tell me I'm the one, hey
I'm comin' in on a perfect approach
An offer you can't refuse
I'm gonna burn, gonna turn up the heat
With all the love you can use
Am I gettin' your attention
Am I speakin' to your heart
There ain't no time to wait and see
You gotta tell me now that it's me
If you need any love tonight
Tell me I'm the one
We'll take the time to do it right
The night lives on
I'll give you all you need tonight
Tell me I'm the one, hey
I've got to know that the feeling is right
All I want is the piece of the night
Tell me girl that my message is coming through
If you need any love tonight
I'll give you all you need tonight

If you need any love tonight
Tell me I'm the one
We'll take the time to do it right
The night lives on
I'll give you all you need tonight
Tell me I'm the one, hey
If you need any love tonight
I'll give you all you need tonight
If you need any love tonight
If you need any love tonight
