

Trapeze Freak

Fu Manchu

Workin' on a rusted out '65
Startliner got a quarter to nine
Glue foot, yeah, he's stuck on the floor
That's all there is, there ain't no more Daredevil takin' too much time
Snake River blastin' rocket ride
To the sky said a friend of mine
With some help and my extra wide Headin' 90 on a 13
Hey, man, do you know what I mean?
Silver streak runnin' down my side
In the bushes, better hide Super cruiser, super cruiser
Catalogue got a sell on 9
I dont know, take five
Flat tire and a busted hose
Where she stops know one knows Super cruiser, super cruiser
