

Acting Crazy (feat. Sarah Howells)

tyDi

I wanna dance
I wanna dance Watching all the constellations form overhead
Through the trees the full moon rises
And lights my bed, and lights my bed
And I'm awake and up on my feet
Got to be near you
I'm running barefoot down the street You got me acting crazy and I wanna dance
(You're taking me over)
Caught in the moment, come on let's take a chance
(You're taking me over)
You got me acting crazy and I wanna dance
Am I crazy, am I crazy
Am I.
Rain is running down the window of this café
Outside you check your reflection
Then walk away, then walk away
And now my heart beat's racing inside
Got to get near you
You're running circles round my mind You got me acting crazy and I wanna dance
(You're taking me over)
Caught in the moment, come on let's take a chance
(You're taking me over)
You got me acting crazy and I wanna dance
Am I crazy, am I crazy
Am I. It's not like me to go all weak at the knees
To lose my mind whenever you appear
But I can't think straight or hide my crazy side
Get drunk on this desire
I wanna dance
You're taking me over
I wanna dance You got me acting crazy and I wanna dance
(You're taking me over)
Caught in the moment, come on let's take a chance
(You're taking me over)
You got me acting crazy and I wanna dance
Am I crazy, am I crazy
Am I. You're taking me over
You're taking me over
You're taking me over

I wanna dance
