

Ordinary Fools

The Chain Gang of 1974

Let's Dance

Hey little baby, I was your little lovely

Are we just ordinary fools? Kiss, kid, kiss little spiders

Let them build a lever

Are we just ordinary fools? Hey, leave your records on(x4) Cold feet, we make love at midnight

I need cherry coke and eyeline

Are we just ordinary fools? I know I truly hate you

But deep down, fuck I miss you

Are we just ordinary fools? Hey, leave your records on(x4)
