

Christmas In My Heart

Ray Charles

Winter nights, twinkling lights
And snowflakes falling to the ground
The air is filled with Christmas Santa's sleigh, kids at play
It's that magic time of year
When love is all around us And that magic seems
To reach right out and touch me again
Just like the years before
It's Christmas in my heart once more It seems that time stands still for Christmas
It's time for laughter and cheer
A time for giving to others
And sharing our love for those we hold so dear Too soon the season's over
As I face the New Year
This wish I make on every start may it be Christmas
Always Christmas in my heart It seems that time stands still for Christmas
It's time for laughter and cheer
A time for giving to others
And sharing our love with those we hold so dear Too soon the season's over
And as I face the New Year
This wish I make on every start may it be Christmas
Always Christmas in my heart Oh, oh, it's just Christmas in my heart
Have a good time
