# My Love Is a Liquid

## Gary Numan & Tubeway Army

Can you see her little eyes?
Can you see her little hands?
Don't you think she looks just like me?
Can you hear her little scream?
Can you hear her little cry?
Don't you think she sounds just like me?You have friends and we have reasons
I can't meet you face-to-face
There are no corners to hide in my room
No doors, no windows, no fireplace
My love is only for me
My love needs nobody else
Did you know that my love is a liquid?
I could talk to me for years
I can't speak to you at all
Did you know that friends come in boxes?You have friends and we have reasons
I can't meet you face-to-face
There are no corners to hide in my room
No doors, no windows, no fireplaceSave your money buy a tube
Let your body flow inside
Watch it grow before your eyes
Watch it grow before your eyes
You have friends and we have reasons
I can't meet you face-to-face
There are no corners to hide in my room
No doors, no windows, no fireplace
