

Fireflies

Zendaya

Flies turn to flames
When heart start to chase
You'll fall if you run right into the smoke
The lights start to deem when it's almost enough
But flames light this place.[Chorus]
Fireflies tonight
'Cause love lights the sky
Hey yeah So put it up in, put it up in the air
put it up in, put it up in the air.
So put it up in, put it up in the air
put it up in, put it up in the air. Baby, tell me right that you share
That's the loving put it in the atmosphere
If you want you put more
Living in the air
Just keep your attention so the clouds go nowhere
Just please light this place, oh oh oh oh [Chorus]
Fireflies tonight
'Cause love lights the sky
(Hey yeah) [Repeat x2]
So put it up in, put it up in the air
put it up in, put it up in the air.
So put it up in, put it up in the air
put it up in, put it up in the air. Let it burn, burn
Let it burn, burn
Let it burn, burn
Let it burn, burn [Chorus]
Fireflies tonight
'Cause love lights the sky So put it up in, put it up in the air
put it up in, put it up in the air.
So put it up in, put it up in the air
put it up in, put it up in the air.
